

# New STERLING RECESSED UNITS

*With Genuine 22K Gold and Silver  
Beaded Glass Panels*

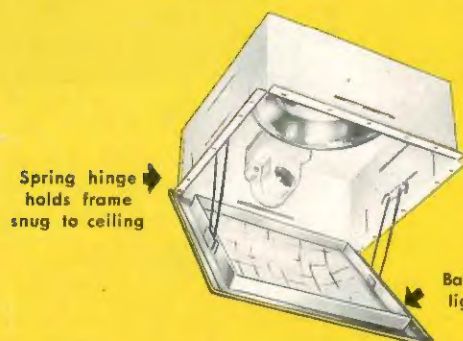

*Des*  
**Gold**  
**Silver**

Sterling Recess Units — with new precious-metal, beaded glass panels — hit a new high in decorating decor. In this new line — expanded to give you greater sales potential — you may combine either 22K gold or silver decorated drop glass panels in modern or traditional patterns with frames of black wrought iron, polished brass, or mirror-like chrome. Designed for finest residential use, you'll agree that these are the most attractive recess units ever! The illustrations, although printed in color, do not do justice to their sparkle — you must see these handsome units in the ceiling where the light really shows off the breath-taking beauty of the glass panels.

Available in three sizes and three frame finishes. See specifications on other side.

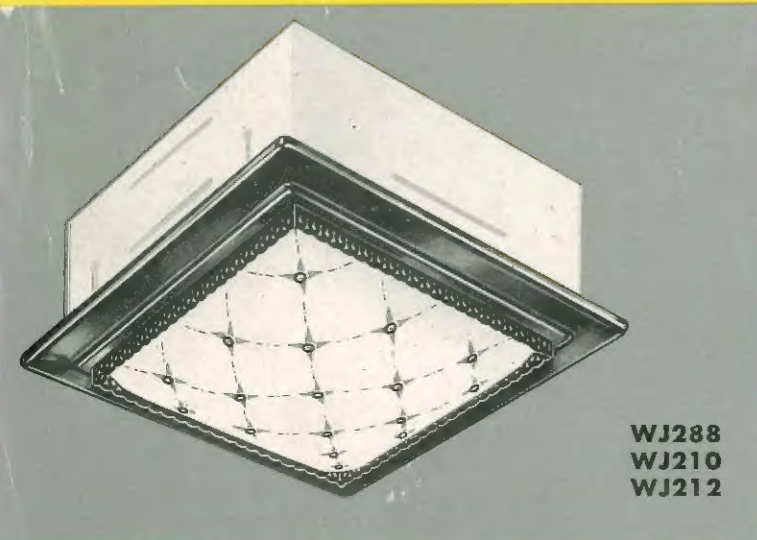

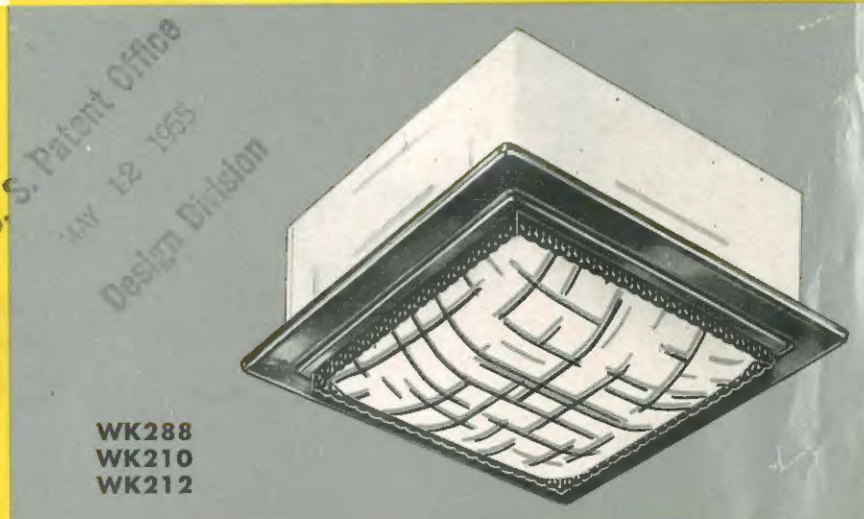

## New "Spring-Type" Concealed Hinges

Polished reflector for maximum light efficiency

No knobs to turn — no visible hinges to mar the smooth beauty of Sterling Recessed Fixtures.

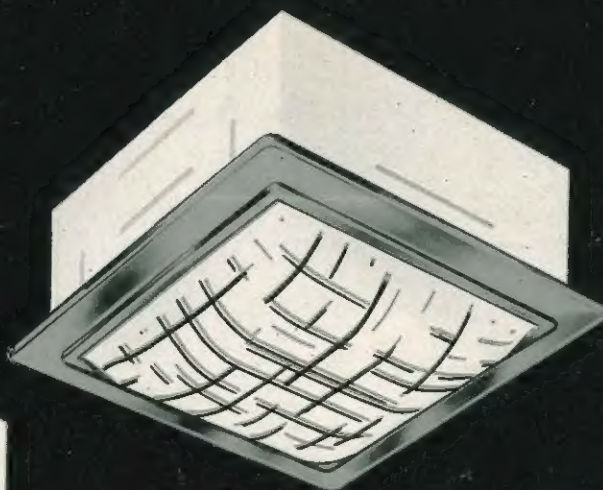

Approved and labeled by Underwriters' Laboratories, Inc. and Canadian Standards Assn.
